

G-LOCKER

Secure. Smart. Seamless.

Resort Key Management System

A premium key access management solution designed for modern luxury resort operations.

G-LOCKER
Secure. Smart. Seamless.

Engineered for Resort Infrastructure

Modern resorts require precise control over access across multiple operational zones, departments and staff roles. Traditional key systems create operational inefficiencies, security risks, misplaced keys and limited visibility over who accessed what and when.

G-LOCKER provides a centralized and intelligent framework for secure key management, bringing structure, visibility and operational control to every resort.

G-LOCKER

Secure. Smart. Seamless.

Centralized Key Management Platform

An intelligent key management solution that streamlines key access, strengthens security and delivers real-time visibility across every department of your resort.

Authentication Options	
 Fingerprint	 Face Recognition
 RFID Card	 **** PIN Code

Core Capabilities :

- ◆ Digital Issuance and Lifecycle Management of Keys and Credentials
- ◆ Role-Based and Zone-Based Access Configuration
- ◆ Centralized Control Dashboard for Operational Visibility
- ◆ Real-Time Updates and Access Monitoring
- ◆ Integration-Ready Architecture for Resort Systems

Built to replace fragmented processes with structured control.

G-LOCKER

Secure. Smart. Seamless.

Streamlined Resort Operations

Designed to reduce operational delays and improve coordination across every department.

Operational Benefits :

- ◆ Eliminates Manual Key Registers
- ◆ Improved Accountability Across Departments
- ◆ Faster Key Issuance and Returns
- ◆ Real-Time Visibility Over Key Activity
- ◆ Complete Audit History for Every Transaction

Efficiency through centralized intelligence and automation.

G-LOCKER

Secure. Smart. Seamless.

Controlled Access. Full Visibility.

A security-first approach to managing key access across your resort, delivering greater visibility, accountability and operational control.

Security Benefits

- ◆ Controlled Access Across Restricted and Operational Zones
- ◆ Real-Time Monitoring of Key Activity
- ◆ Full Audit Trail for Compliance and Governance
- ◆ Reduced Risk of Unauthorized Access or Misuse
- ◆ Enhanced Oversight of Staff and Third-Party Access

Built for precision, accountability, and operational security.

G-LOCKER
Secure. Smart. Seamless.

Built for Modern Resort Operations

A scalable smart key management solution designed for properties that prioritize security, efficiency and operational control.

Success Story

"Before implementing G-Locker, managing keys was a manual and time-consuming process. The new system has given us centralized control, real-time visibility of key movements, and complete audit logs for every transaction. It has significantly improved accountability, strengthened security, and made day-to-day operations much more efficient, with three G-Locker machines seamlessly supporting key management across our offices."
